THE CO-OP AND TEMPO® NETWORK... YOUR CONNECTION TO CONVENIENCE

.....

The Co-op™ and Tempo® network has over 280 conveniently-located Cardlock fuel stops, so it's easy to use your Cardlock Card whenever you need fuel.

**“On Your Way...
24 Hours a Day”**

• **EP3000® Premium Diesel Fuel**

(not available at all locations)

- **CO-OP® Diesel Fuel**
- **CO-OP® Gasoline**

2 THE PURPOSE OF THIS BOOKLET

-
1. To provide the user with a list of Cardlock sites and site amenities.
 2. To provide information on safeguards that must be observed by the user of the facilities to prevent the possibility of fire and/or explosion when fueling vehicle.
 3. To familiarize users with the operation of unattended self-serve dispensing equipment.
 4. To ensure that users understand their obligations in the safe use of an unattended site and to explain the implications of not following safe practices.

NOTE: The distance to the next cardlock site in each direction (if applicable) is listed on each cardlock map. The distances listed are approximate.

GPS Co-ORDINATES

.....

GPS (Global Positioning System) co-ordinates have been included for each site (in the top right of the page beside the page number). If you are aware of any updates needed to the information, please advise your co-op contact.

.....

Safe Fueling Tips

- ALWAYS turn off vehicle when refueling and turn off any pilot lights or open flames.
- STAY near vehicle fueling port to avoid hazardous spills. DO NOT LEAVE NOZZLE UNATTENDED at any time during the refueling.
- NEVER smoke, light matches, or use lighters while refuelling or within 7.5 m of the refuelling area.
- Ensure other sources of ignition, such as other running vehicles, are not within 7.5 m of cardlock dispensing pump.
- NEVER prop open the refuelling latch with other items – use only the hold-open latch equipped on the nozzle.
- DO NOT get back into your vehicle when refueling.
- DO NOT top off your tank.
- If a flash fire occurs, back away, contact attendant, and most importantly: LEAVE NOZZLE IN VEHICLE.
- Always be mentally and physically equipped to perform the refuelling task.
- Do not allow children to refuel.
- Do not boost your vehicle within 7.5 m of cardlock pump.
- Avoid the use of cellular phones or other electronic devices as they may be a distraction.
- Report any spills to the posted Emergency Site Contact.
- Locate nearest “Emergency Shut-Off” switch and be familiar with its function.

Static Electricity Safety

- Static charges are caused by an imbalance of electrons on the surface of material and can develop by contact and separation of materials, as well as through the transfer of fluids through hoses or pipes. The equalization of the charges can result in a release of a static discharge spark.
- Refuelling fires can occur when:
 - Static charge picked up when re-entering vehicle
 - Touching nozzle without discharging static electricity
 - A static transfer between the fuel nozzle and container
 - A spark ignites fumes
- Discharge your static electricity before fueling by touching a metal surface away from the fuel nozzle area.

Static Electricity Safety (continued)

- Do NOT re-enter your vehicle while gasoline is pumping.
- If a fire starts, Do NOT remove nozzle – back away immediately.
- Do NOT allow children under licensed age to use the pump.

Filling Portable Containers

- Use only CSA approved containers. Barrels, slip tanks, glass jars and other non-approved containers MUST NOT be filled. Where applicable, grounding cables must be used.
- Set gasoline containers on the ground, Do NOT leave in vehicle – trunk, van or truck bed or any other surface.
- Keep the nozzle in contact with the container to prevent the development of static charges.
- Fill the container slowly to decrease the chance of static electricity build-up and to minimize spilling or spattering.

Petroleum Products

Information on Fire Hazards (flammable and combustible liquids)

1. **Gasoline** – is a Class 1A flammable liquid with a flash point of less than -40°C .
2. **Diesel** – is a Class 2 combustible liquid with a flash point as low as 40°C .

Definitions

Flash Point

The lowest temperature at which fuel gives off a vapour that will ignite when a source of ignition (e.g. spark or small flame) is passed over the surface of the fuel.

NOTE: Gasoline always gives off vapours that can be ignited under any weather conditions. Flammable and combustible vapours are heavier than air and therefore will settle in low lying areas close to the ground.

Flammable and Combustible Liquids

Both of these terms indicate that the liquid is capable of being ignited and burning with extreme rapidity. The difference is based on the flash point of the liquid (i.e. flammable liquids have a lower flash point and will ignite more readily than combustible liquids).

M.S.D.S. – Material Safety Data Sheets

Data sheets explaining the hazards of handling gasoline and diesel products are available upon request at Co-op™ and Tempo® Locations.

FUEL SPILL CONTINGENCY PLAN

.....
 In the event of an incident immediately notify Emergency personnel

- Fire Department
- Police
- Spill Control
- Emergency contact for the Site - General Manager or Petroleum Manager

All sites that have petroleum products will display the Co-op Oil Spill Contingency Plan. The plan will include the relevant emergency numbers for that location. The following outlines the Oil Spill Contingency Plan information posted at the Sites:

Oil Spill Contingency Plan

This is the first line of defence in the event of a spill or a leak. All necessary information is on the plan, and is an excellent guideline when reacting to an incident.

Action Plan

The action plan portion of this section is composed of 3 steps:

1. Immediately
2. Following
3. Report and Clean-up

The action plan is a guideline and not all the steps will be implemented in every spill incident.

Immediately

- **Stop the flow of product.**

If the flow of product can be stopped by shutting off a valve or turning off a pump, then do so immediately.

- **Evaluate fire and safety hazard.**

If gasoline is the spilled product then there is a high risk of fire and explosion. The Flash Point of gasoline is approximately -40°C . Diesel fuel can have a flash point of as low as 40°C .

- **Tend to the injured.**

If there are injured, tend to them. If there are serious injuries, CALL 911 AND GET MEDICAL ASSISTANCE IMMEDIATELY.

- **Shut off sources of ignition – lights, motors, furnaces. No Smoking.**

Ensure that ALL ignition sources are eliminated; all power supplies, any electrical devices are potential ignition sources.

- **Warn people of danger – evacuate area if necessary.**

Do not panic. If you must evacuate your facility, do it in a calm and orderly manner.

- **Call fire department, police, medical aid – 911, as well as posted Emergency Site Contact.**

Each situation will require a different amount of assistance. Use your best judgement to determine the authorities that are required.

- **Move vehicles only in case of fire and if safe to do so.**

DO NOT START ANY VEHICLES.

Following

- **Contain the spill – begin immediately.**

After the situation has been assessed, and immediate action has been performed, the product should be contained.

- **Block off drains, culverts, dykes, ditches.**

Ensure that the product does not spread into waterways or sewers.

- **Surround spill using booms – straw bales, peat moss, absorbent materials, sand, gravel, earth.**
All equipment and materials might not be available in every situation.

Report and Cleanup

(to be guided by the Emergency Site Contact)

- **Report the spill.**
 - Notify the General Manager
 - Petroleum Department – Federated Co-operatives Ltd.
 - Source of spill – product
 - Approximate amount
 - Location and movement of spill
 - Action Taken
 - Department of Environment - Spill Centre
 - If required, call in spill clean-up equipment-assistance
- **Clean-up – begin immediately**
 - Commence recovery, clean-up, restoration.
 - Follow up with Spill Mix Report.

The last area on the action plan does not necessarily mean the steps cannot be done earlier. All incidences regardless of the size **MUST**, at a minimum, be reported to the Site Emergency Contact.

IMPORTANT! - For Retail Cardholders.

The operation and safeguards outlined in this booklet are provided for the user's safety. They should have been both verbally explained and visually reviewed with you by a representative from the retail petroleum department.

When you are satisfied that these steps have been adequately provided, then the operating agreement between yourself and the Co-op must be signed. In the event a Cardlock user is observed operating equipment in an unsafe manner by a fire inspector, the Cardlock card **MUST** be surrendered to the fire inspector upon request. No substitute card can or will be issued to a user who has been prohibited from using an unattended self-serve site due to unsafe operation.

The fire inspector shall report any conviction for safety violations to the Fire Commissioner. The Fire Commissioner's office will compile and provide a list of offenders to retail managers of unattended self-serve locations.

Consumer Protection**
**Ask Your Petroleum
Representative for Details**

CARDLOCK OPERATING INSTRUCTIONS

.....

The cardlock equipment at some of the sites in the Co-op™ and Tempo® network is being upgraded to accept a mag stripe cardlock card in addition to the currently used punched card. Sites that have been updated with this equipment will have 2 slots to insert cards at the card readers. Please use the appropriate slot for the punched card or the mag stripe card that you have been issued to use. Note that the Dual Card Reader sites (which accept punched or mag stripe cardlock cards) have slightly different instructions for keying. Watch the prompts and enter the appropriate information. Summarized below are the instructions for a Single Card Reader and a Dual Card Reader.

SINGLE CARD READER

Follow instructions on display screen.

DISPLAY SCREEN	ACTION REQUIRED
----------------	-----------------

Be sure pump or dispensers and nozzles (and satellite if applicable) that you wish to use are all in the “off” position.

- | | |
|--------------------------|---|
| 1. INSERT CARD | Insert card in slot |
| 2. REMOVE CARD | Remove card immediately |
| 3. ENTER PIN | Key in PIN (Personal Identification Number)
Press ENTER |
| 4. ENTER ODOM (optional) | Key in mileage
Press ENTER |
| ENTER MISC (optional) | Key in unit number or misc # info
Press ENTER |
| 5a. ENTER PUMP # | Key in pump number desired. Press ENTER
e.g. 1. Diesel Fuel
2. Gasoline
3. Propane |

- 5b. PLEASE WAIT
- 5c. USE PUMP
6. Begin fueling your vehicle within one minute. DO NOT USE PUMP UNTIL ALL OF STEP 5 IS DONE.
Do not leave pump or nozzle unattended.
7. After fueling please turn pump (and satellite if applicable) to OFF position to stop transaction. Hang up hoses. If desired, proceed to activate TICKET RECEIPT PRINTER.
8. Reinsert card.
9. ISSUE RECEIPT? Press either the “YES” or “NO” key on the keypad.
If “YES” selected, display shows PRINTING RECEIPT.
10. Do not pull receipt from TICKET RECEIPT PRINTER while printer is operating. Wait for receipt printer to stop. Display will read TAKE RECEIPT.
Then take receipt from printer.

DUAL CARD READER

Follow instructions on display screen.

DISPLAY SCREEN	ACTION REQUIRED
----------------	-----------------

Be sure pump or dispensers and nozzles (and satellite if applicable) that you wish to use are all in the “OFF” position.

- | | |
|-----------------|--|
| 1. INSERT CARD | Insert card in slot |
| 2. REMOVE CARD | Remove card immediately |
| 3. ENTER PIN: | KEY IN PIN (Personal Identification Number)
Press ENTER. Note: If PIN keyed incorrectly multiple times, then card will become invalid. Contact your card issuer for help. |
| 4. ENTER PUMP # | Key in pump number desired. Press ENTER. |
| 5. PLEASE WAIT | |
- Optional Information - As applicable

6. VEHICLE I.D. Key in unit/vehicle ID.
Press ENTER.
- ODOMETER: Key in odometer.
Press ENTER.
- ENTER ACCOUNT TYPE Key in account type.
1=FARM 2=COMM 3=PUMP Press ENTER.
Press CLEAR Key to erase errors
7. PLEASE WAIT
8. BEGIN FUELING Do not leave pump or
nozzle unattended.
9. USE PUMP "X" Begin fueling using
Pump indicated.
10. Begin fueling your vehicle within one minute
11. After fueling, please turn pump (and satellite if
applicable) to OFF position to stop transaction.
Hang up hoses. If desired, proceed to activate
TICKET RECEIPT PRINTER. FOLLOW RECEIPT
PRINTER INSTRUCTIONS CAREFULLY.

TO OBTAIN RECEIPT

12. Insert card in slot
13. ISSUE RECEIPT? No/Yes Press "YES"
14. Take receipt after printing is complete.

In case of emergency, press emergency stop button (could be located on the card reader face, weather booth, building wall, fence, etc.) and pump will stop. When safe, repeat procedure from beginning. If you encounter problems or need assistance, please use the telephone located on or near the site.

	Winnipeg	204-633-8950

Facility Legend on last page of this book.

.....
Problem:

Pump requested will not operate. Cardreader states "PUMP HANDLE? RE-ENTER".

Solution:

You may have turned the pump handle on before you requested the pump, or handle was left on from previous transaction. Turn off pump and start procedure again. Commence fueling.

.....
Problem:

Pump has been selected and turned on, but no fuel is delivered from the nozzle when squeezed.

Solution (1):

If pump is equipped with a twin hose (large and small nozzle), be sure the 3-port 2-way valve on the pump is turned to select the hose and nozzle you wish to use. Commence fueling.

Solution (2):

If the pump is equipped with a satellite dispenser, be sure your main pump is turned on. If the 3 port 2 way valve is on the pump, be sure you have selected the correct hose, if necessary, to direct product flow. Commence fueling.

Solution (3):

If the satellite is switched on, the main hose will not work. Turn satellite off, main hose will now work. Commence fueling.

.....
Problem:

Pump is pumping and meter is running but no product is dispensed.

Solution:

Stop fueling and contact your nearest representative with details as soon as possible.

.....

Problem:

Pump is dispensing product, but meter is not registering anything.

Solution:

Contact site representative who can arrange service contractor for repairs.

.....

Problem:

Fueling is complete, pump is turned off, but you cannot get receipt.

Solution:

Press clear on the receipt printer pad. Enter your card or CARD number. If there is no record of your transaction, try another receipt printer, if available on site. If you do not get a receipt, then contact the site administrator identified on site.

Thank you.
